PROFILE

Aspiring Full-stack Developer and Agentic AI Enthusiast With Hands-on experience in Building Scalable Web Applications Using Modern Backend and Frontend Technologies. Passionate About Hackathons, Rapid Prototyping, and AI-assisted Development and actively looking for insternships in related fields

PROFESSIONAL EXPERIENCE

Handshake AI Fellowship - AI Trainer **July 2026 - August 2026**

- . Designed realistic, web-dependent questions to challenge the latest models
- . Guided fellows to identify reliable sources, create model-stumping prompts, and construct clear 'gold' search trajectories demonstrating the answer-finding process

EDUCATION

Pranavananda Vidyamandir **June 2024**
Class 10

Zoom International School **June 2026**
Class 12-Science

Asansol Engineering College **August 2026 - Present**
B.Tech in Computer Science and Engineering

PROFESSIONAL SKILLS

- Python
- Artificial Intelligence
- Prompt Engineering
- Agentic AI Coding
- SQL

PROJECTS

- DevBrain - Persistent Al Memory Platform

. Built an Al memory system that preserves software project context across coding sessions.

. pair programmed with Al.

- Specter-1.0 - Compliance & Risk Al Auditor

Fine-tuned Meta Llama 3 8B using LoRA on domain-specific SEBI, RBI, and CGST compliance datasets.

- Zerobin - A blazingly fast, intelligent PC cleaner and cold-storage archiver

. Powered by Rust pair programmed with Al.

ADDITIONAL INFORMATION

- **Languages:** English,Hindi,Bengali
- **Certifications & Badges :** Introduction to Generative AI - Google ,
  AI Foundations - OpenAI ,
  Introduction To Software Engineering - IBM, Introduction To Cloud Computing - IBM
